- Performed GST reconciliation and Input Tax Credit (ITC) verification to support regulatory compliance. - Reconciled ERP-Tally transactions and aligned inventory and stock records to improve reporting accuracy. - Gained working exposure to ERP workflows, GST compliance, textile costing, and export documentation.	
Audit Intern NVP & Co., Chartered Accountants	Coimbatore, Tamil Nadu
<i>2 Months, 2022</i> - Assisted with bank reconciliation and accounting entries as part of statutory audit engagements. - Prepared GST compliance documentation and supported client tax filings. - Carried out Tally ERP operations and general audit support, gaining hands-on experience in accounting and audit procedures.	

ACADEMIC PROJECTS

Financial Modeling & Valuation with AI - Applied Finance Project

Tools: Microsoft Excel, AI-assisted Financial Modelling

- Built integrated three-statement financial models (Income Statement, Balance Sheet, Cash Flow) in Excel, including revenue, expense, working capital, and capital expenditure forecasting.
- Performed Discounted Cash Flow (DCF) valuation, estimating Free Cash Flow, Terminal Value, Enterprise Value, and Equity Value.
- Conducted sensitivity and scenario analysis, and ratio analysis to evaluate business valuation outcomes under varying assumptions.

- Applied AI-assisted learning tools to strengthen financial forecasting techniques and corporate valuation methodology.

ESG Performance and Growth of Indian Companies - MBA Research Project

Tools: R, RStudio | Dataset: 50 observations, 2020-2024

- Analyzed the relationship between ESG indicators (carbon emission, energy consumption, employee turnover rate) and financial performance metrics (ROA, ROE) across Indian companies using R and RStudio.
- Conducted descriptive statistics, correlation analysis, and multiple linear and stepwise regression to identify key predictors of financial performance.
- Found ROA to be a statistically significant predictor of ROE, validated through stepwise regression and R^2 evaluation.
- Interpreted statistical outputs to derive evidence-based insights on the ESG-financial performance relationship.
